FLORIAN STÜRZENBAUM

**contrast.

Florian Stürzenbaum. Visual clarity across all disciplines. Award-winning photographer, designer, and painter. After years working as an art director, he founded his own studio in 2008. His artistic work encompasses high-contrast, minimalist black-and-white photography, reduced painting, and clean design. Across all disciplines, he follows a consistently minimalist visual language and focuses on the essentials — light, structure, and expression.
